

AQUATIC TECHNOLOGIES

The Algae Treatment Experts

PRODUCT: **ALGAE MASTER**

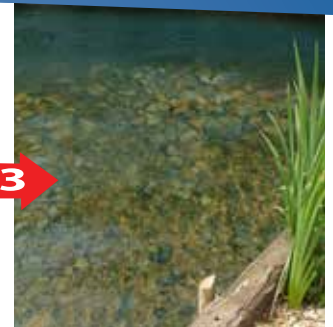

TARGET: **PONDS, FISH PONDS & DAMS**

1. It coagulates microalgae.

2. It clears water by flocculating sediment particles.

3. It removes phosphorous (algae's food source).

*Algae Master is the complete solution to not only coagulate algae, but reduce the algae's food source.*

**WHEN ALGAE MASTER IS APPLIED, YOU GET ITS 3 in 1 ACTION:**

1. Coagulates microalgae from its photosynthetic range
2. Removes suspended particles, clearing the water column
3. Removes excess Phosphorus, starving the algae

**➔ It's a treatment, flocculant and suppression all in one!**

**Algae Master** works by coating the algae and dragging it out of its photosynthetic range where the algae will be starved of light and die.

**Algae Master** targets AND removes suspended particles such as algae, clay, silt and phosphorus (the algae's food source).

**SAFE FOR**

Drinking Water, Irrigation, Stock, Fish, Aquatic Plants, Pets, Wildlife & Hydroponics.

# HOW TO USE: ALGAE MASTER

**Algae Master is one of the safest treatments on the market!**

You can use Algae Master where fish are present, wildlife swim and livestock drink!

## HOW TO APPLY:

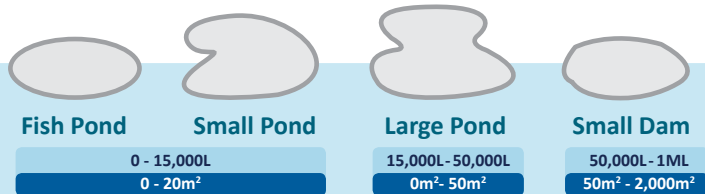

Apply Algae Master via a spray unit. Dilute 1-part product to 10-parts water and spray as evenly as possible across the water's surface.

**Pro Tip:** Use a coarse nozzle and/or remove the spray unit's filter for easy application.

**For smaller applications:** Dilute recommended amount of Algae Master in a bucket of water and tip evenly around the water body.

### SUITABLE FOR

Small Ponds, Fish Ponds, Large Pond & Small Dams.

## APPLICATION RATES:

*The Algae Treatment Experts*

### Algae Master

### Application Rates:

Where to Use	How Much To Use	How to Apply	When To Apply
Fish Ponds, Ponds, Small Dams, Large Dams	300mL per 1,000L of water to be treated, <b>OR</b> 10L per 100m <sup>2</sup> of water surface area with a maximum depth of 1m.*	Dilute 1-part Algae Master in 10-parts town or tank water and spray evenly across the water's surface using a coarse nozzle. <b>SHAKE VIGOROUSLY!</b>	Once or as required.

**For Best Results:** Use a coarse nozzle and/or remove filter from spray unit. For severe algal blooms or high turbidity, add additional 20% product to application.

**For smaller applications:** Dilute recommended amount of Algae Master in a bucket of water and tip evenly around the water body.

\*Water volume is calculated as (surface area x 1m max. depth x 0.33) x 1,000 = volume in litres.

*\*Always read the product label for directions.*

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL. WITHHOLDING PERIOD NOT REQUIRED WHEN USED AS DIRECTED.
