

AQUATIC TECHNOLOGIES

The Aquatic Weed Control Experts

PRODUCT: **AQUATIC RAZER RAKE**

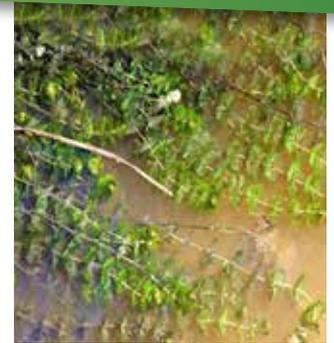

TARGET: **LAKE, POND AND DAM WEEDS**

Nardoo

Eurasian Watermilfoil

Fanwort

The Razer Rake is made of galvanized steel and aluminium, making it durable but light.

AQUATIC RAZER RAKE

It provides 91cm of harvesting surface and the rakes teeth are designed specifically for aquatic vegetation management and care. Each tip of each rake tooth is formed to make a chiselling edge for better cutting and digging action for lake and pond weeds and their roots. Also clears free-floating aquatic weeds and debris on the surface of the water.

The Razer Rake is collapsible for easy storage and takes up less space than a shovel. The total weight of the Rake is 2.72kg and the handle length is 274cm with a 7.6m rope length.

The rake head comes fully assembled, just snap the handle together and the rake is ready to use. Included in the box is the Rake Head, Rake Handle, 7.6m rope, 2 Rake floats with Velcro straps and nut and bolt for rope attachment. The powder coated aluminium handle and aluminium rake will not rust or corrode.

SAFE FOR

Drinking Water, Swimming, Irrigation, Stock, Fish, Aquatic Plants, Pets, Wildlife, The Environment, Hydroponics & 100% Natural.
