PRODUCT: **MUCK BREAKER**

TARGET: **MUCK**

Large Ponds

Dams

Lakes

10.88kg (96 tablets)

Break free of your muck problems with Muck Breaker

Over time, leaves, twigs, grass clippings, fish waste, and other organic matter accumulate in your pond or dam and start to decay and rot. The breakdown of this matter forms a black pond muck. This pond muck continually releases nutrients into the water that leads to water turbidity issues or algae, weed growth and odours. Muck Breaker is a completely natural product, and when used in accordance with label directions is completely safe for your fish, plants, pets and other aquatic wildlife.

Before After

MUCK BREAKER

- **Easy to use - Simply toss tablets into water**
- **All natural & environmentally friendly**
- **Restores water clarity by lowering suspended organics**
- **Can be used in large ponds, dams and lakes**

SAFE FOR

Swimming, Irrigation, Fish, Pets, Livestock & Aquatic Life. No witholding period.

HOW DOES IT WORK?

Muck Breaker is a super-concentrated puck which contains a special blend of beneficial probiotic bacteria, trace minerals and enzymes, designed to work in large ponds, dams and lakes. This combination is highly effective at clearing turbidity caused by organic matter in water whilst getting rid of unpleasant odours.

The Muck Breaker tablets rapidly digest organic matter after application, in an extremely effective process known as biological oxidation. This process converts organic matter into a safe odourless gas that escapes unnoticed, leaving your dam with a clean muck-free base. This process is highly effective and can remove **up to 5cm** of pond muck when used regularly. Muck Breaker tablets are designed to sink to the bottom of ponds and lakes where they directly target pond muck for better performance.

Shallow water treatment

Great for beaches, docks, shorelines less than 50cm water depth or total pond and lake treatment greater than 50cm water depth

Muck Breaker

Sizes 2.7kg = 24 tablets
10.88kg = 96 tablets

Application Rates:

Where to Use	How Much To Use	How to Apply	When To Apply
Large ponds, dams, lakes (greater than 50cm water depth)	Up to 1,000m²: Use 4 tablets every 2 weeks Up to 2,000m²: Use 8 tablets every 2 weeks	Toss pucks evenly by hand over the treatment area.	**Initial Dose:** Apply every 2 weeks depending on severity of pond muck, until your desired water clarity is restored. **Maintenance Dose:** Apply every 2 weeks depending on severity of pond muck, until your desired water clarity is restored.
Shorelines, shallow waters (less than 50cm water depth)	Up to 1,000m²: Use 22 tablets every 2 weeks Up to 2,000m²: Use 43 tablets every 2 weeks	Toss pucks evenly by hand over the treatment area, or spot treat where muck is visible.	

Keep product in original container when not in use and store in cool, dry place away from direct sunlight. Muck Breaker has a 5-year shelf life. Wear rubber gloves when handling Muck Breaker. Avoid dust inhalation. Avoid contact with skin, eyes and clothing. Wash hands with soap and water after use.

For best results:
Recommended to wait three days after algaecide/herbicide application before using Muck Breaker.
Muck Breaker is best used when the water temperature is above 10 °C and between pH 6.5-8.5.
Use aeration if available for better performance.
Even coverage is recommended.
Use in conjunction with the Muck Razer for faster results.
