SECTION 4 – FIRST AID MEASURES

Scheduled Poisons: Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).

Inhalation:

Remove victim from area of exposure - avoid becoming a casualty. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. Keep at rest until fully recovered. For all but the most minor symptoms arrange for patient to be seen by a doctor as soon as possible, either on site or at the nearest hospital.

Skin Contact:

If skin or hair contact occurs, immediately remove any contaminated clothing and wash skin and hair thoroughly with running water. If swelling, redness, blistering or irritation occurs seek medical assistance.

Eye Contact:

Immediately wash in and around the eye area with large amounts of water for at least 15 minutes. Eyelids to be held apart. Remove clothing if contaminated and wash skin. Urgently seek medical assistance. Transport promptly to hospital or medical centre.

Ingestion:

Immediately rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water. Seek immediate medical assistance.

Indication of immediate medical attention and special treatment needed:

Treat symptomatically. Can cause corneal burns. Product is a strong astringent.

Advice to Doctor: Ensure label is on hand. Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons.

| | SECTION 5 – FIRE FIGHTING MEASURES |
|--|---|
| Specific hazards arising from the chemical: | Non-combustible material. |
| Extinguishing Media: | Not combustible, however, if material is involved in a fire use: Fine water spray, normal foam, dry agent (carbon dioxide, dry chemical powder). |
| Special protective equipment and precautions for fire- fighters: | Decomposes on heating emitting toxic fumes, including those of oxides of sulfur. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to products of decomposition |

| SI | ECTION 6 – ACCIDENTAL RELEASE MEASURES |
|--|---|
| Emergency Procedures: | Clear area of all unprotected personnel. If contamination of sewers or waterways has occurred advise local emergency services. |
| Personal precautions/ Protective equipment/ Methods and materials for containment and cleaning up: | Slippery when spilt. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contact. Contain - prevent run off into drains and waterways. Use absorbent (soil, sand or other inert material). Neutralise residues with lime or soda ash. Collect and seal in |

| | properly labelled containers or drums for disposal. |
|-----------|---|
| | SECTION 7 – HANDLING AND STORAGE |
| Handling: | Avoid skin and eye contact and breathing in vapour, mists and aerosols. |
| Storage: | Store in a cool, dry, well ventilated place. Store away from incompatible materials |
| _ | described in Section 10. Keep containers closed when not in use - check |
| | regularly for leaks. |
