

PRODUCT: **GREENCLEAR POND**

TARGET: **ALGAE**

Precision in Action: Takes on scum build-up along pond edges

A Fresh Start: Bid farewell to decaying organic matter from rocks and waterfalls

Environmentally-safe: Fish-friendly with its non-toxic composition

Introducing GreenClear Pond *A Breakthrough Algae Control Solution*

UNLOCK THE KEY BENEFITS OF GREENCLEAR POND

- **Algae Reduction:** Witness the rapid decline of green, string, blue-green and filamentous algae.
- **Comprehensive Cleansing:** Eliminates dead organic matter, filamentous and string algae from rocks, waterfalls, pond edges, bird baths and fountains.
- **Non-Toxic Fish Protection:** Safeguard your aquatic companions with our non-toxic formula, ensuring the well-being of all pond inhabitants and safe for fish.

BALANCING YOUR POND ECOSYSTEM

Filamentous algae, often referred to as string algae with excessive growth can compromise water quality and endanger your fish. GreenClear Pond restores a healthy environment for your fish while removing all types of algae and eliminating the build-up of organic matter.

SAFE FOR

Fish, Pets, Aquatic Plants, Wildlife & The Environment.
