

# PRODUCT: SURFACE CLEAR

TARGET: PONDS, DAMS, LAGOONS & LAKES

AQUATIC TECHNOLOGIES

The  
Aquatic  
Weed  
Control Experts

*The safe and effective way to reduce the re-establishment of free-floating aquatic debris in ponds, dams, lagoons and lakes.*

## SURFACE CLEAR

- Reduces the re-establishment of free-floating aquatic debris
- Lines the surface of the water with a thin silicone barrier
- Fast-acting effects
- Lasts between 4-6 weeks

**Surface Clear** helps to limit the risk of the re-establishment of new free-floating aquatic debris in your water. This silicone-based liquid disperses across the water surface to give fast-acting effects.

Once you've cleared your body of water, **Surface Clear** helps to reduce the likelihood of re-establishment.

### SAFE FOR

Swimming, Irrigation, Stock, Fish & Pets.

Helping to reduce the re-establishment of free-floating aquatic debris, this silicone-based liquid disperses across the water's surface to give fast-acting effects.

## HOW CAN I CONTROL FREE-FLOATING AQUATIC DEBRIS?

Free-floating aquatic debris can be hard to get rid of. It establishes rapidly in large numbers, so reducing its re-establishment requires some added effort.

Affecting the surface tension of water by creating a silicone 'barrier', this pourable solution prevents the re-occurrence of new free-floating aquatic debris by stopping it from floating - providing the peace of mind you need in ensuring your water's surface stays as clear as possible.

**Surface Clear** works perfectly in conjunction with **Orange Oil** and approved herbicides such as **AQ200** that aim to clear the water's surface.

*The Aquatic Weed Control Experts*

### Surface Clear

### Application Rates:

Where to Use	How Much To Use	How to Apply	When To Apply
Large Pond, Dams and Lagoons	100mL per 100m <sup>2</sup> of water surface area.	Pour directly from the container into the water body to be treated.	Apply every 4-6 weeks, or as required.

**For Best Results:** When used in conjunction with **Orange Oil**. Apply **Surface Clear** 2 hours after you have applied **Orange Oil**. When applying after the application of approved herbicides, such as **AQ200**, apply **Surface Clear** 4 days afterwards at a rate of 100mL per 100m<sup>2</sup> of water surface area.

*\*Always read the product label for directions.*

### SUITABLE FOR

**Large Pond**

15,000L - 50,000L  
0 - 50m<sup>2</sup>

**Small Dam**

50,000L - 1ML  
50m<sup>2</sup> - 2,000m<sup>2</sup>

**Large Dam**

1ML - 10ML  
2,000m<sup>2</sup> - 10,000m<sup>2</sup>

**Lagoon**
