C OPTIONAL TWISTER PACKAGE

Add movement at varied speeds for special effect!

- Low power consumption
- DIY easy interchangeable nozzles
- Patterns rotate at a wide range of speeds

- Highly efficient pump with high streams at great volumes
- Debris prevention nozzles
- Made in the USA by Aqua Control

**When using the twister in conjunction with the nozzles, this will effect the height of the overall spray pattern by up to 10%*

Spider Arch

Weeping Willow

Lily

Cluster Arch

By simply adding the 'TWISTER nozzle' you can add the effect of movement.*

Please see the connecting patterns the 'Twister' is compatible with below.

Standard Nozzle + TWISTER	*Only the following patterns twist: • Cluster arch • Lily • Super lily
Extension Nozzle + TWISTER	*Only the following patterns twist: • Double arch • Quad • Spider arch • Weeping willow
