

Product Name: Surface Clear Free Floating Aquatic Weed Control
APVMA Approval No: 96957/151328

Label Name:	Surface Clear Free Floating Aquatic Weed Control
Signal Headings:	READ SAFETY DIRECTIONS BEFORE OPENING OR USING
Constituent Statements:	ACTIVE CONSTITUENTS: 55.2 g/kg ORANGE OIL 195 g/kg SURFACTANTS
Mode of Action:	
Statement of Claims:	For the control of Salvinia, Red Azolla and Lemna in non-potable water.
Net Contents:	1L to 1000L
Restrains:	NOT for use in natural water bodies or streams where it will reach natural water bodies. DO NOT use in dams holding water for humans.
Directions for Use:	This section contains file attachment.
Other Limitations:	
Withholding Periods:	
Trade Advice:	
General Instructions:	General Instructions: Application

	Application should be made by means of handheld spray equipment such as backpack sprayers, handheld pressurized spray guns, applying the spray directly to the surface of the weed infestation. The spray should be applied closely to the weed infestation as possible to minimize spray drift. The droplet size applied should be in the range MEDIUM to COARSE.

Resistance Warning:	
---------------------	--

Precautions:	
--------------	--

Protections:	PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT DO NOT contaminate streams, rivers or watercourses with the chemical or used containers. Inappropriate use of this product and dosages higher than recommended may harm fish and other aquatic animals. Use strictly the recommended dosage rate and report any incidents of potential harm to the supplier.
--------------	--

Storage and Disposal:	KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product. Refillable Containers: Empty contents fully into application equipment. Close all valves and return to designated collection point for refill or storage.
-----------------------	---

Safety Directions:	May irritate the eyes and skin. Avoid contact with eyes and skin. Repeated exposure may cause allergic disorders. Sensitive workers should use protective clothing. When opening the container and preparing the spray, wear elbow length PVC gloves. Wash hands after use. After each days use wash gloves.

DIRECTIONS FOR USE:

SITUATION	WEEDS CONTROLLED	RATE	CRITICAL COMMENTS
Golf course dams and lakes, Minor water impoundments, Ornamental lakes	Salvinia Red Azolla Lemna	Mix one part product with 100 parts water	For use in artificial impoundments & enclosed bodies of water in all states and territories in Australia. Spray onto free-floating plants lightly, just enough to change their normal colour. Avoid single heavy application, instead apply several light applications over a 1-3 week period. Apply when weed infestation is small rather than advanced. DO NOT spray dense solid mats of Salvinia with no visible water surface. Where possible apply directly to the target weeds and avoid spraying water where weeds are not present. DO NOT overspray more than 0.5m into open water. If weed growth is heavy, mechanical removal prior to spraying must be used to minimise the amount of spraying necessary and reduce the risk of eutrophication. Water bodies with average depth of less than 1 metre should not be treated.

NOT TO BE USED FOR ANY PURPOSE OTHER THAN INDICATED ON THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION
